

Cold/ Heat Compression Therapy Machine VU-COT01

VU-COT01 therapy system integrates iceless cold, heat and compression therapies in one easy-to-use unit. The cold compression machine adopts a fully automatic semiconductor refrigeration system, with optional wrapping accessories for different body parts.

For patients with long-term exercise, labor, various trauma, bone injury, fever, pain and swelling, etc., it can continuously improve the blood of the human body circulation and vasodilation. It has the advantages of safety, simplicity, and high efficiency.

Specification

- Working Voltage:** DC12V
 - Power Consumption:** 400W
 - Adjustable Time:** 5~99minutes
 - Pressure range:** 30~120mmHg
 - Water temperature:** 5°C~40°C
 - Machine size:** 50*28*28.5cm
 - Machine net weight:** 10KG
- Switchable temperature unit °C and °F

Optional 5 therapies programs

Cold Compress

Heat Compress

Compression

Cold Compression

Heat Compression

Features & Details

High-end LCD display,
Intelligent Control

Water compress 5°C~40°C
can enjoy iceless cold

With power adapter, can be connected
to power supply 100V~240V

Optional accessories for different body parts
